Total Recycled(Kgs)		

- 1) If waste items are in units they are counted as kilograms for simplicity
- 2) KGCO2E = Kilogram Carbon Dioxide Equivalent – we use industry standards to estimate CO2 offset from recycling.

Equivalency Results:

Your organization's waste recycled for the report period is equivalent to one of the following statements:

- Annual greenhouse gas emissions from 120 passenger vehicles
- CO2 emissions from 59,961 liters of petrol consumed
